**Dear, John Doe**

***Welcome to the Siccura Partner Community.***

Thank you for your confidence in Siccura and welcome to our partner community.

Siccura exists to transform lives. It's a bold statement, but we believe in creating value which has a positive impact and transforms the lives of many.

Our products are driven by our mission: ***Private and Secure Digital Life for Businesses and Individuals.*** We believe that in this fast changing and complex digital landscape, all data should be secured at the point of creation and should remain so at "Rest, in "Motion" and whilst is "Action". We also believe that the data owner should have "Total Control" over what anyone can and cannot do with it.

Our management team and founders have an extensive amount of experience from starting new businesses and IPO in UK. They have created over \$4 Billion in company and shareholder value from their ventures.

There is a long list of products for different use cases which are in development. The next 2-3 years are very exciting.

With the combination of our innovative products and your market knowledge expertise, we will achieve success for each other.

Look forward to working with you for many years.
